2009 FMS Teleconferences

all calls are from 12:00pm - 1:00pm CST unless otherwise noted
all calls are 1 contact/clock hour unless otherwise noted

may

Stroke/ Hypertension Teleconference
May 13th

The attendee will gain a deeper understanding of how to appropriately care for the home services patient with hypertension or stroke and the difficulties they face.

OASIS Teleconference
May 27th

An in-depth discussion & sample scenario related to one OASIS item, examining all the available guidance from Chapter 8, CMS Q&As and the OCCB Q&As.

june

Legal & Ethical Issues in End of Life Care
June 3rd

The attendee will learn the legal rights of a patient at the end of life and the ethical issues concerning these patients.

Diabetes Mellitus Coding
June 17th

(12-1:30pm, 1.5 hours)*
Diabetes along with its manifestations are some of the most common codes used in home care and are also the most common codes that are used incorrectly. This audio conference will provide the knowledge every coder needs to code diabetes within the coding guidelines.

july

Home Health Billing Teleconference
July 8th

The attendee will be given important information regarding the importance of home health billing for Medicare, and the importance of knowing what type of bill to submit for different patient scenarios.

OASIS Teleconference
July 22nd

An in-depth discussion & sample scenario related to one OASIS item, examining all the available guidance from Chapter 8, CMS Q&As and the OCCB Q&As.

august

Coding Teleconference
August 5th

Risk adjustment is an important part of home health and will become even more important as the industry moves toward pay for performance. With the updated overview of risk adjustment and outcome measures published in June of 2008, coding specialists need to understand the relationship between coding and risk adjustment. In addition to numerical codes, thirty two V codes and one E code now have risk adjustment value. Understanding the role that accurate coding plays in affecting agency outcomes is a new but important piece of the puzzle in today's home health environment.

Nursing Care at the End of Life
August 26th

The teleconference will enrich the clinician's contributions to quality palliative care for patients at the end of life. It offers a more clear understanding to the clinician of the needs of patients and families facing a life-threatening illness or event.

september

Home Health Insurance Billing
September 2nd

The attendee will be given important information regarding home health billing and will also learn more about the process of billing episode payments and the exceptions to billing other than the usual episodic claims.

Emergency Preparedness
September 9th

This teleconference will cover how to develop a home services emergency preparedness plan as required by Texas state regulation. Suggestions will be provided to develop and maintain a plan to prepare for, respond to, and recover from, all types of major emergencies that might occur.

Coding Teleconference
September 30th

Get the 2010 coding changes hot off the presses!

october

Breast Cancer Awareness
October 7th

This activity will help the attendee increase his/her knowledge of the advances in breast cancer awareness including new research and findings, as well as, the staging of patients with breast cancer.

Coding Teleconference
October 14th

Missed it in September? Discuss the 2010 coding changes and how to implement them.

Home Health DDE Teleconference
October 21st

The attendee will receive an overview of how to use the DDE system for various billing needs.

november

OASIS Teleconference
November 3rd

An in-depth discussion & sample scenario related to one OASIS item, examining all the available guidance from Chapter 8, CMS Q&As and the OCCB Q&As.

Mental Illness Awareness Month
November 4th

The Registered Nurse and other health care professionals will gain understanding of the factors which may contribute to a patient and/or caregiver being labeled as "difficult". Strategies to manage the care of these individuals will be explored to maximize patient and staff satisfaction and improve clinical outcomes.

december

National Depression: Elderly Depression
December 9th

This activity will help the attendee increase his/her knowledge of the advances in elderly depression including new research and findings.

Hospice Insurance Billing
December 16th

This teleconference will discuss and explain how hospice Medicare is billed. It will also teach how to identify patient eligibility and a step by step process for billing in the Medicare system. We will discuss the DDE system and how to navigate it correctly and effectively for hospice billing.

Continuing Education:
 • Foundation Management Services, Inc. is an approved provider of continuing nursing education by the Texas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
 • Approval status refers only to the continuing education activity and does not imply the American Nurses Credentialing Center's Commission on Accreditation or Texas Nurses Association approval or endorsement of any commercial products.
 • Earn contact hours upon the successful completion of this activity. The participant must attend the full offering to qualify for successful completion of the activity. Partial credit WILL NOT BE AWARDED. Meets state requirements for Administrator clock hours.
